Marine Geology Volume 143, 1997

Special Issue: COLDSEIS (seismic facies of glacigenic deposits). Edited by J. Syvitski, A.K. Cooper and M.S. Stoker

Preface: Seismic facies of glacial deposits from marine and lacustrine environments
J.P.M. Syvitski, M.S. Stoker and A.K. Cooper 1
Lithofacies and seismic-reflection interpretation of temperate glacimarine sedimentation in Tarr Inlet, Glacier Bay, Alaska
J. Cai, R.D. Powell, E.A. Cowan and P.R. Carlson 5
Western Norwegian fjord sediments: age, volume, stratigraphy, and role as temporary depository during glacial cycles
Inge Aarseth 39
Postglacial sequence stratigraphy of Lake Melville, Labrador
J.P.M. Syvitski and H.J. Lee 55
Effects of the readvance of an ice margin on the seismic character of the underlying sediment
I. Lønne and J.P. Syvitski 81
Seismic facies changes along a nearly continuous 24° latitudinal transect: the fjords of Chile and the northern Antarctic Peninsula
J.L. DaSilva, J.B. Anderson and J. Stravers 103
Multibeam bathymetry of glaciated terrain off southwestern Newfoundland
J. Shaw and R.C. Courtney 125
High-resolution 3D seismic reflection and coring techniques applied to late Quaternary deposits on the New Jersey shelf
T.A. Davies and J.A. Austin, Jr. 137
Glacial debris flow deposits on the Baffin Island shelf: seismic facies architecture of till-tongue-like deposits
J.A. Stravers and R.D. Powell 151
Late Weichselian deglacial history of the Svyataya (Saint) Anna Trough, northern Kara Sea, Arctic Russia
L. Polyak, S.L. Forman, F.A. Herlihy, G. Ivanov and P. Krinitsky 169
Late Pleistocene and Holocene depositional environments and paleoceanography of the Barents Sea: evidence from seismic and biostratigraphic data
Yu. A. Pavlidis and E.I. Polyakova 189
The glacier-influenced Scoresby Sund Fan, East Greenland continental margin: evidence from GLORIA and 3.5 kHz records
J.A. Dowdeswell, N.H. Kenyon and J.S. Laberg 207
Substrate control on distribution of subglacial and glaciomarine seismic facies based on stochastic models of glacial seismic facies deposition on the Ross Sea continental margin, Antarctica
L.R. Bartek, J.L.R. Anderson and T.A. Oneacre 223
